# PHILADELPHIA'S MYSTERY

No New Developments in the Langdon-MeGrath Case.

THEORIES OF THE POLICE

they Are of the Opinion that Langdon Murdered the tilt and Then, Attempted Suicide Result of Post Mortem Is Awaited

Philadelphia, March 25.—Develop-ments today were meagre in the sensa-tional Langdon-McGrath case. Samu-el P. Langdon, the rather aged but very prominent business man who had lived with young Annie J. McGrath for over a month in luxurious style at 2226 Gi-tard avenue and who was arrested vesa month in inxurious style at 232 car-rard avenue and who was arrested yes-terday in connection with her death, the body having been found in the residence on Manday algint is still in-custody at the city hall. The authori-ties cantinue to maintain an air of reflectives regarding the affair. It is reticences regarding the affair. It is understood, however, that Langdon will not be formally arraised until Doctors Mattern and Leffman, the respective coroner's physicians and chemical expert, shall have made known the result of their postmortem examination of the young girls body, it is said that Langdon is now merely held on the charge of suspicion and that further developments will determine what the specific charge against him will be. Langdon has been in consultatin with attorneys since his incaregration and he is becoming restive. but it will probably be several days bebut it will probably be several days be-fore the result of the autopsy will be announced. Henry McGrath, the father of the victim, visited the coroner's of-fice today and had a long interview with Coroner Ashbridge and Deputy with Coroner Ashirings and pepuly Coroner Dugan, but at its conclusion, he refused to talk. When Deputy Coroner Dugan was asked about the case, he too declined to say a word. Coroner Ashbridge went so far as to say that there were doubts as to the cause of the young woman's death and their actions definite in this resuect that nothing definite in this respect would be known until the physicians who made their post mortem shall re-

has been learned that the young girl was never in Langdon's employ as a stenographer as has been stated. How the couple became acquainted is

THEORY OF SUICIDE.

The theory is now strongly enter-tained by the police that Langdon mur-dered the girl, and they also believe that Langdon afterward endeavored to end his own life.

The supposition is that Langdon satneated the towel now in the possession of Detective Grier with other or chloro-form, and after placing the towel over

form, and after placing the towel over the girl's face, he drugged himself. Police Surgeon Andrews' evamina-tion of Langdon shows that he had in-habed the fumes of some soperiferous drug, probably ether. The prisoner's tongue and lips are covered with ulcers similar to those found on the lips of the dead girl. Just what drug caused these coverings has not yet been decided.

cruptions has not yet been decided.

To a reporter today Dr. Andrews said:
"I found that the whole of Langdon's tongue was a series of mucus natches. From the tip of the tongue to the root there is considerable irritation, with small red indentures, surrounded by white circles. Ulcerations of this character mucht be caused by mineral acids. but in this case mineral acids were scarcely used, as the inflammation and ulcerations would be greater. On Lang-don's longue they are not severe, but merely superficial and quite recent. The

lips are also irritated.

BERTHA STEWART'S STORY. The colored servant, Bertha Stewart, says she heard her mistress scream out on Sunday afternoon at about 4.30. She went upstairs and knocked at the bed room door, which was opened by Lang-don. She saw Annie McGrath lying on the bed with the towel over her face. Langdon explained that she had one of her billious attacks. Dr. Andrews was

asked if a person under ether would be likely to cry out or scream. "Oh, yes," he replied, "that is a common effect of the drug. Ether and chloroform act different. Ether is a stimulant, and a person suffering from its effects might scream. That is the primary state. The doctor also said that persons un-

der ether were subject to hallucinations. and there was no accounting for their actions.
Professor Leffman is still at work

analyizing the contents of the stomach In answer to the questions of a re-

porter, he said; "Thus far I aave found that the stomach shows no signs of bilious troubles. The girl's death might have been caused by morphine or ether. There are no indications that she swallowed laudanum. In the region of the heart there were several blood clots, but I cannot say at present whether these could cause death. Deputy Coroner Dugan scouted the idea of suicide on the girl's part.

She had \$100 in her pocket when the hody was found," he said, "She wore good clothes and had diamonds. In addition to this she was too young to want to end her life."

Shortly after noon Langdon sent for his counsel. When the lawyer arrived the prisoner requested him to send for a physician. Langdon is sald to be quite ill, but the nature of his illness is

not known.

Coroner Ashbridge visited Langdon in his cell at the central station this af-ternoon and held a long interview with

LANGDON'S BELATIVES SHY.

A Leader representative called today upon Mrs. Samuel P. Langdon, wife of the coal operator, flow under arrest in Philadelphia charged with the murder of Miss Annie McGrath.

Mrs. Langdon was located at the cot-tage home of her father, James Hart-rey, and her brother-in-law. Mr. Fink, at Springdale, sixteen rules from the city. Mrs. Langdon positively refused to make her appearance or to furnish any statement whatever concerning her husband's escapade in Philadelphia. Mr. Fink stated that no action would be taken or statement made until they had received letters from certain friends of the family now in Philadelphia. Mr. Fink said his sister was almost prostrated. Mr. Fink declined to locate either son or daughter of Mes to make her appearance or to furnish locate either son or daughter of Mrs. Langdon, further than saying that the son was in the cast and the daughter

MOTION REVEALED.

What heretofore has been lacking has seemingly developed, and that is the motive for a great crime. If Langdon killed the woman his motive was one of the strongest passions in the world-

## EFFECT OF PROTEST.

In diplomatic circles here it is not be-lieved that the steps taken by the porte to protest against the expedition to Dongola will have anything more than a moral effect, and, though it is admit-ted that France and Russia will refuse their consent to the use of the Egyptian Reserve fund, it is generally under-stood that nothing short of the armed interference of France and Russia prevent Great Britain from pushing the Soudan campaign.

Parts, March 25.—A semi-official note was issued this morning stating that France will refuse to sanction the use of the Egyptian Reserve fund for the purpose of the British-Egyptian ex-pedition up the Nile to Dongola, unless she receives precise bledges concern-ing the British evacuation of Egypt. to serve them.

Sheriff Clemons was notified, and he in turn called upon County Detective Leyshon and Coroner Longstreet.
The coroner had made an examina-tion of Mink at 9 o'clock, and when told of the purpose of the immediate arrests gave it as his opinion that the wound-

ed man was in no condition to recognize anybody. WARRANTS SWORN OUT. It was decided, however, to proceed with the arrests, and at 1 o'clock this morning the warrant was sworn out by Richards before Alderman Millar, who was found preparing to retire after

coming up on the late train from Pittston, where he had been conducting a Inspection.

Who the accused parties are Mr. Leyshon would not divulge. Only one name was mentioned in the warrant, but as was mentioned in the warrant, but as it was intended to make a number of arrests, an "et. al." was inserted. The county detective left the office with Withers and Richards and commenced gathering his posse. Shortly before 2 o'clock they left in cabs for Dunmore.

Eight Hour Day System Agitated by American Federation of Labor. Indianapolis, Ind., March 25 .- At today's session of the executive council of the American Federation of Labor, the eight-hour day was again taken up, the sub-committee recommending that the Carpenters' National union be selected to make the first move toward the establishment of the eight-hour

If the employers do not come to terms with the members of all unions who work overtime, a strike will be ordered. The strike, if it occurs, will be general, as the federation has determined to push the eight-hour movement until it omes a permanent fixture
